## Popular Used Server & Workstation CPU Stock List

Compact Public Version | Server CPU First | EPYC | Xeon | Threadripper PRO | Xeon W

Stock List Date	2026-06-08	Total Models	180
Main Positioning	Popular used server CPU supply + selected workstation CPU and platform kit options	Price	No price shown in this public stock list
Condition	All models are marked as USED in this public stock list	Stock Qty	Estimated safe range: 5+ / 10+ / 50+ / 100+ / 300+
Validity	Daily stock; final check before PI	MOQ	Sample from 1 pc; wholesale from 10+ pcs/model
Contact	WhatsApp: +86-132-6380-2004   WeChat: KF258912   Email: ytao7420@gmail.com	More Models	Full model support available upon request

### Category Summary

Category	Models	Category	Models
AMD EPYC Server CPU - Selected Popular Models	52	Intel Xeon Scalable Server CPU - Selected Popular Models	67
AMD Threadripper / Threadripper PRO Workstation CPU	20	Intel Xeon W Workstation CPU	8
Intel Xeon E5 CPU - Trimmed Common Models	14	Intel Xeon E3 CPU - Trimmed Common Models	7
Server Motherboard / Platform Kits - Selected Models	12		

Public List Strategy	This compact public version keeps the stock list easier to share: EPYC / Xeon server CPUs remain the main category, selected Threadripper PRO / Xeon W workstation CPUs are added as a high-ticket supplement, and older E5 / E3 lines are trimmed to common / frequently requested models only. More models can still be quoted by request. Compatibility, ES/QS status, stepping, BIOS version, unlocked version status and board condition must be confirmed before PI.

## Order Terms & Server / Workstation Stock Notes

Item	Details
List purpose	Compact public popular-model stock list for customer sharing. It is not the full backend model library.
More models	More server CPU, workstation CPU and related platform models can be quoted upon request.
Condition	All items in this public stock list are marked as USED. Special condition requests must be confirmed separately in writing.
Unlocked status	All products are unlocked versions by default unless separately confirmed in writing.
No prices included	This public stock list does not show unit prices. Send model + quantity + destination country to receive today quotation.
Qty display	Qty is displayed as estimated safe range only, not exact locked stock. Final quantity must be confirmed before PI.
Stock validity	Stock status changes daily. Confirm stock, grade, batch condition and freight before payment.
Product check	For EPYC / Xeon server CPUs, workstation CPUs and motherboards, compatibility, ES/QS status, stepping, BIOS version, unlocked version status and board condition must be confirmed before PI.
Platform note	Threadripper / Threadripper PRO and Intel Xeon W are workstation CPUs. They should not be mixed with EPYC or Xeon Scalable server platforms.
MOQ	Sample orders can start from 1 pc for selected models. Wholesale price normally starts from 10+ pcs per model.
Payment	Bank TT, USDT (TRC20), Western Union. Bank charges or payment platform fees are not included.
Shipping	DHL / FedEx / Air cargo / customer forwarder. Freight, customs duty and local tax are not included unless written in PI.
Warranty	CPU default: 30D DOA for tested A-grade used items unless otherwise stated. GPU and components: 7-15D / batch terms confirmed before PI.
Packing	Anti-static tray + carton. Custom label can be arranged for reseller orders.
Next step	Send your model list, quantity and destination country. PI can be issued after final stock and freight confirmation.
